

## BOX SEAT CHAIR

Youthful and handsome, this essential chair captures the art of inspired living. Crafted with a solid-steel frame, it's sturdy yet feels light and airy just like its rock climbing tool namesake. Its tailored look is achieved with a Gun Metal finish accented by wood arm caps finished in Canyon Mist—a cool brown with a light silver metallic ceruse. A textured, cross-weave fabric in goldenrod with flecks of mist grey gives this chair its retro meets modern vibe. Perfect for a study, bedroom or living space, it's timeless design will never fall out of fashion.
