

PLATFORM BED - KING BED

A timeless motif used throughout the ages, the laurel leaf captures the essence of nature's majesty and is the symbol of luxury that brings this distinctive platform bed to life. Reflecting Rococo-era architectural motifs, these moldings and ornamentations add classical elements to the sophisticated shape of this sumptuous bed. An exquisite Aglow finish accentuates these carved shapes, as well as the bed's elegant trim, moldings and legs. Narrow, vertically tufted pleats add another layer of luxury to this fully upholstered bed while giving a nod to the leaders of this influential time period. The result is a masterful creation that will withstand the test of time just as surely as its inspiration.
