

STOP AND STARE ENTERTAINMENT CABINET

It's true, this console is so extraordinary, you can't help but Stop And Stare. Generous in scale, it's an instant source of brightness and reflectivity that creates a natural focal point. A wavy acrylic exterior mirrors the undulating patterns of sand and sea while its grey sandstone top adds another layer of organic splendor. The mirrored interior back and bottom panels are designed to reflect light as it pours in from every angle as well as mirror the beauty of the treasures you display. Glass shelves ensure unobstructed views as do its touch-latch doors with concealed hinges. A Brushed Nickel finish outlines its rounded silhouette and six tapered feet, imparting the overall luxe feeling of a diamond in a platinum setting.
